

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Patent No: 7,811,574

Docket No.: BC45300-1US

Issue date: October 12, 2010

Inventors: Jean-Pol Cassart, et al.

COMMISSIONER FOR PATENTS
P.O. Box 1450
Alexandria, VA 22313-1450

REQUEST FOR CERTIFICATE OF CORRECTION

Commissioner for Patents:

A certificate of correction under 35 U.S.C. Section 254 is respectfully requested in the above-identified patent.

An Examiner's Amendment entered subsequent to a telephone interview with Eric Kron on August 16, 2010, amended the application as follows:

Claim 7: A method of inducing an immunoresponse in a human ~~or non-human animal~~ comprising administering a peptide fragment of SEQ ID NO:2 to the human or non-human animal, wherein the peptide fragment comprises SEQ ID NO:25.

However, the agreed-upon changes to claim 7 were to delete every reference to the term "or non-human animal" as follows:

Claim 7: A method of inducing an immunoresponse in a human ~~or non-human animal~~ comprising administering a peptide fragment of SEQ ID NO:2 to the human ~~or non-human animal~~, wherein the peptide fragment comprises SEQ ID NO:25.

The Examiner's Amendment failed to set forth all agreed-upon changes to Claim 7, specifically it failed to delete the second occurrence of "or non-human animal." The error is clear on the face of the patent, because the first portion of the published claim 7 in the patent clearly states: "A method of inducing an immunoresponse in a human comprising..." without reference to "a non-human animal." The error is clearly on the part of the Office, because the last amendment to the claims made by Applicant was filed 10 Mar 2009, and as of that amendment claim 7 read as follows:

Claim 7: A method of inducing an immunoresponse in a human or non-human animal comprising administering a peptide fragment of SEQ ID NO:2 to the

human or non-human animal, wherein the peptide fragment comprises SEQ ID NO:25.

The attached Certificate of Correction corrects the error.

Respectfully submitted,

/Eric J. Kron/
